

Mission

Striving to be the best sports company in the world, with brands built on a passion for sport and a sporting lifestyle, adidas is a global organisation that is socially and environmentally responsible.

Our Community Affairs efforts drive social improvement activities to help the communities where we live and operate to reach the fullest potential while enhancing our reputation as a responsible brand.

Our core belief is that Through Sport We Have The Power To Change Lives. It constitutes the foundation for our Corporate Giving.

Areas of Engagement

Our Corporate Giving will be provided selectively and focuses on the following areas of engagement:

- Sports within a social context
- Kids and Youth
- Education
- Preventive Health Projects (preferably sports-related)
- Relief efforts

adidas supports projects which show sustainable benefits to the communities where we live and operate.

Potential Partners

Consideration is given to organisations which complement our corporate philosophy and core belief. They need to hold a recognised reputation for integrity in program implementation, financial management and project effectiveness. They also need to act in accordance with adidas Code of Conduct and comply with the adidas Anti-Bribery and Corruption Policy.

Restrictions

In order to comply with our core belief, we do not utilise our Corporate Giving Program for the following purposes:

- Private pursuits
- Political parties, associations and representatives of advocacy groups
- Organisations that discriminate by race, creed, gender, gender identity, sexual orientation, age, religion or national origin
- Cultural projects in association with film, music and theatre sponsoring
- Religious causes
- Research projects

- Advertising and promotion

In addition and according to the adidas Anti-Bribery and Corruption Policy, no grants will be made if there is a relevant risk that products will be used or perceived as bribery or if our brand name or brand images could be jeopardised or misused.

Forms of Corporate Giving

Serving the different needs of requesting organisations and projects, Corporate Giving at adidas can take the form of:

- Cash donations
- Donations in kind
 - Products
 - Equipment
 - Services
 - Know-how
- Corporate Volunteering

Corporate Giving should not be understood as an initiative to secure the operations of the project-executing organisation. Any form of dependency on adidas as a sponsor should be avoided.

To meet our requirement on executional excellence and to reflect our passion in Corporate Giving, we strive to cater for specified projects rather than to invest money in the administrative machinery of an organisation.

Application Procedure

Requests must be submitted in writing and are accepted throughout the year. The request should be sent to the organisation's closest subsidiary or Liaison Office. adidas asks for a project proposal of no more than two pages. The following information needs to be included:

- A description of the organisation and its goals and the specified project
- Brief information which indicates the stability of the organisation, such as a list of board members (with detailed information about the relationship or connection to public officials (if any)), the registration number and place of registration, financial statements and other funding sources for the fiscal year/project
- The amount, product, equipment or service requested
- The specific purpose for which the donation is to be used
- Confirmation that the donation is tax-deductible
- Proof of the impact and results of the project
- Format of reporting and post-event-documentation for adidas

Grant Requirements

- Requesting organisations need to complement the core values of adidas and to adhere to adidas Code of Conduct.
- The requesting organisation must clearly describe the intended use.
- The requesting organisation must acknowledge in writing that products donated by adidas are used only for the intended purpose.
- Projects to be supported must be limited in time and the content needs to be defined clearly.
- In case of any competing projects we will apply the following criteria in order to make a decision: geography, timeliness, quality and sustainability.
- The requesting organisation must organise and conduct the logistical process for product donations themselves and they must guarantee that they will bear the respective costs.
- The requesting organisation must clearly state how a cash grant has been allocated and must be able to provide proof in the form of documentary evidence that the amount was used for this purpose.
- The organisation must provide us with post-event documentation (project report, photographs, CD, video) within 4 weeks after the project closes.

Acceptance of Application

Project organisers may submit informal requests for donations to adidas in writing.

Applications are accepted and reviewed throughout the year in the order in which they are received.

Decisions on acceptance or refusal depend on the relevance in relation to our Corporate Giving Policy and funding availability.

All applications are reviewed on an individual basis. Notification regarding the status of the decision is normally sent within four weeks of submitting a proposal.
